Northwest Arkansas' Free Health Center

All are welcome. All receive the best care available and are treated with respect and dignity. For over 30 years, WelcomeHealth has been Northwest Arkansas' Free Health Center, a non-profit clinic offering no-cost medical, dental and pharmaceutical services to low-income residents of Northwest Arkansas. Our services are available to all who qualify, including the uninsured, underinsured and those who have insurance but are unable to afford co-pays and deductibles.

Quality care for you

We believe everyone deserves access to high-quality health care, and we want to welcome you to the best care possible.

Medical care

Your health needs are uniquely yours, which is why we take the time to get to know you, your sleep habits, occupational stresses, and everything that may adversely affect your well-being. Our nurse practitioners, volunteers, physicians and support staff have been with us for years. That means consistent and continual care from professionals who are familiar with your health history.

Dental care

We recently expanded our dental services to offer better oral care and give our patients more to smile about. With a veteran staff of dentists, dental hygienists, volunteers and support staff, we now offer comprehensive dental services – from exams and cleaning to denture and restorative services.
